

## Media kit Rhätische Bahn

With around 1,600 employees, we offer 12 million passengers a year a memorable journey through the Swiss canton of Graubünden. The 385-kilometre network boasts a number of fascinating facts: one third of the network is located higher than 1,500 metres above sea level. One third of it is a UNESCO World Heritage site. And one fifth consists of man-made tunnels and bridges. With our regional and freight trains as well as the Vereina car transporter, we ensure reliable transport chains in the Swiss canton of Graubünden. With the panoramic trains Bernina Express and Glacier Express as well as the UNESCO World Heritage “Rhaetian Railway in the Albula/Bernina Landscapes”, we have world known brands, which we both nurture and position together with our partners in tourism.

### **Bernina Herb Express:**

Enjoy a trip to Le Prese aboard the Bernina Herb Express. Experience the UNESCO World Heritage landscape up close while riding 1st or 2nd class in an RhB panoramic car. Prepare to be amazed and immerse yourself in the Valposchiavo world of herbs. A lunch that is 100% sourced in Valposchiavo awaits in Le Prese, where you can go on a tour of the herb fields and production facility of Raselli Erboristeria Biologica.
