

GLACIER EXPRESS: UPDATE ON THE RESUMPTION OF SUMMER 2020 SERVICES

The **Glacier Express services are due to recommence on 20 June 2020**, a fact confirmed by the Swiss government on 27 May 2020. There will be fewer Glacier Express trains and they will be less busy than they normally would be. Added to this increase in comfort is the fact that all cars are newly renovated and equipped with the infotainment system.

1 Operational concept for resuming summer 2020 services

Given the expected level of demand, we will start with only a limited timetable. **Trains 902 / 903 will run according to timetable.** The following trains will be temporarily suspended: 900/901/904/905/906/907

We intend to expand the timetable subject to concrete demand.

2. Klasse (Bp)	2. Klasse (Bp)	1. Klasse (Ap)	WrP	1. Klasse (Api)	Excellence (Aps)	Total Sitzplätze
48 Sitzplätze	48 Sitzplätze	36 Sitzplätze	Panoramabar	30 Sitzplätze	20 Sitzplätze	182

3 Safety concept / hygiene measures

The Glacier Express is following the guidelines set out in the public transport safety concept and the provisions outlined for tourist traffic and gastronomy. Certain measures are also being implemented and supplemented by the Glacier Express. However, the safety concept also relies on passengers taking responsibility and showing solidarity

For the latest safety information and travel regulations, we would also like to refer you to the websites of the Federal Office of Public Health (FOPH), the Federal Department of Foreign Affairs (FDFA), the regulations given by your home country and/or the WHO.

The following measures apply for passengers on the Glacier Express:

- Heed the hygiene rules set out by the Federal Office of Public Health (FOPH)
- Keep your distance (2 m) at the station when boarding or disembarking
- Use the sanitisation points at train stations / sanitiser is available on board the train
- Hygiene masks are highly recommended if you are unable to keep your distance and must be brought along by passengers
- We urge you not to leave your allocated seat and only move around within your car
- The Glacier Bar / Panorama Bar is closed
- Regular cleaning will take place and cleaning requirements have been increased

4 Complete makeover of the Glacier Express fleet

Endless views and outstanding comfort

Just in time for the 90th anniversary of the Glacier Express, all panoramic cars are being renovated to ensure passengers have a more comfortable and pleasant journey. Following the launch of the Excellence Class cars in 2019, the newly renovated 1st and 2nd class panoramic cars also leave nothing to be desired.

In addition to a completely new and retrofitted interior, each seat now comes with a power socket and free Wi-Fi. Besides the traditional audio guide, all passengers can now access the newly built-in infotainment system available in eight languages via their smartphone or tablet. This provides them with interesting information about the route and allows them to track their location on the map. This will ensure they don't miss any of the numerous highlights.
