Winter adventures, here we come.

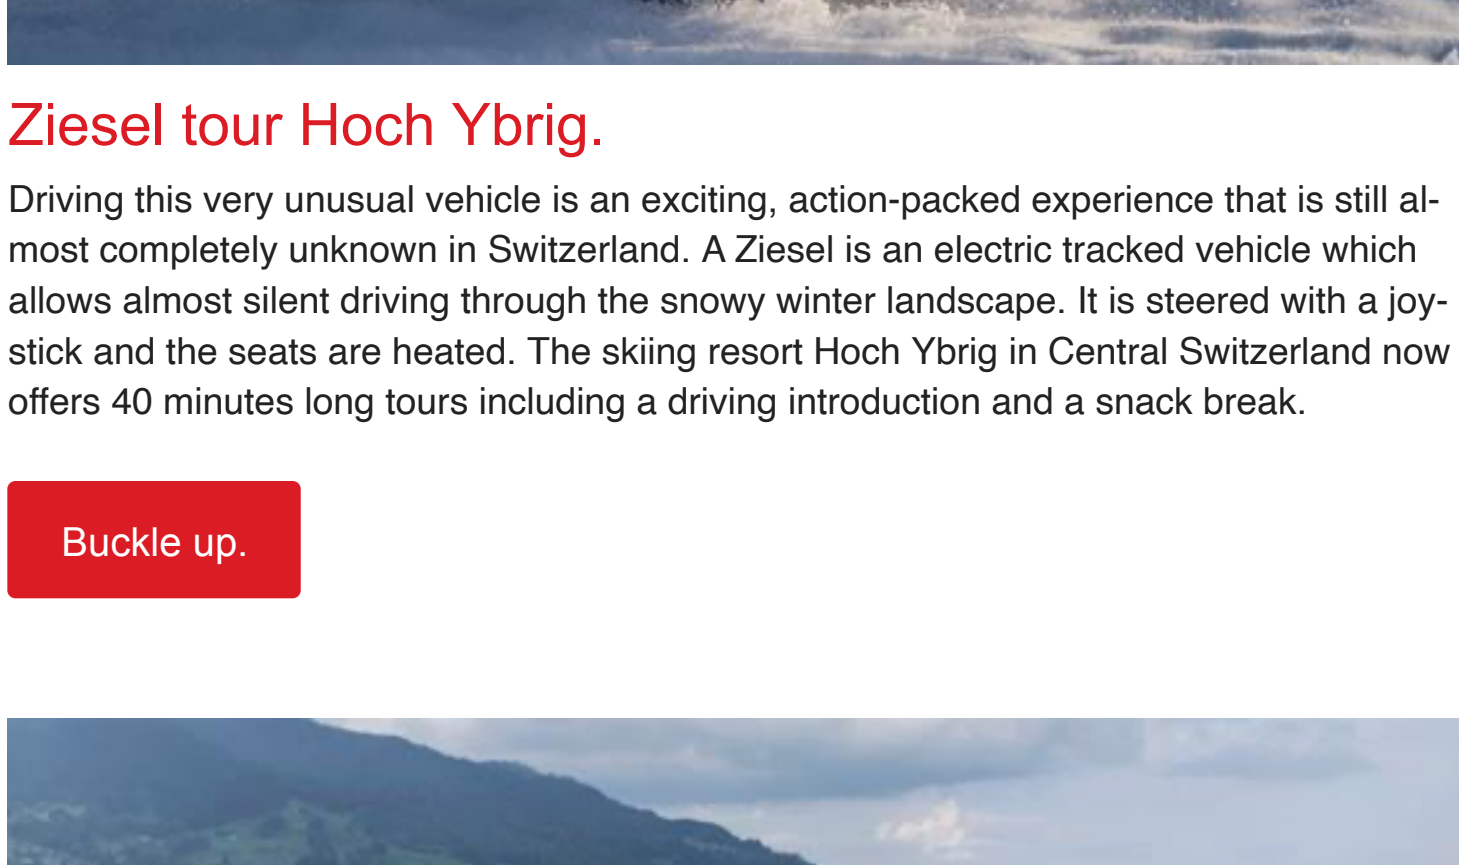

Dear media friends,

While autumn is spoiling us with some glorious sunshine, the race for the slopes is on. Switzerland follows up on a succesful 20/21 winter season and is ready to welcome all the ski and outdoor lovers this coming season. And as the first snow has been reported, it's high time for some winter content inspiration!

Further, we're thrilled to announce, that as of immediately the NHS Covid certificate is accepted in Switzerland in order to participate in social life and access venues and events.

Best regards,

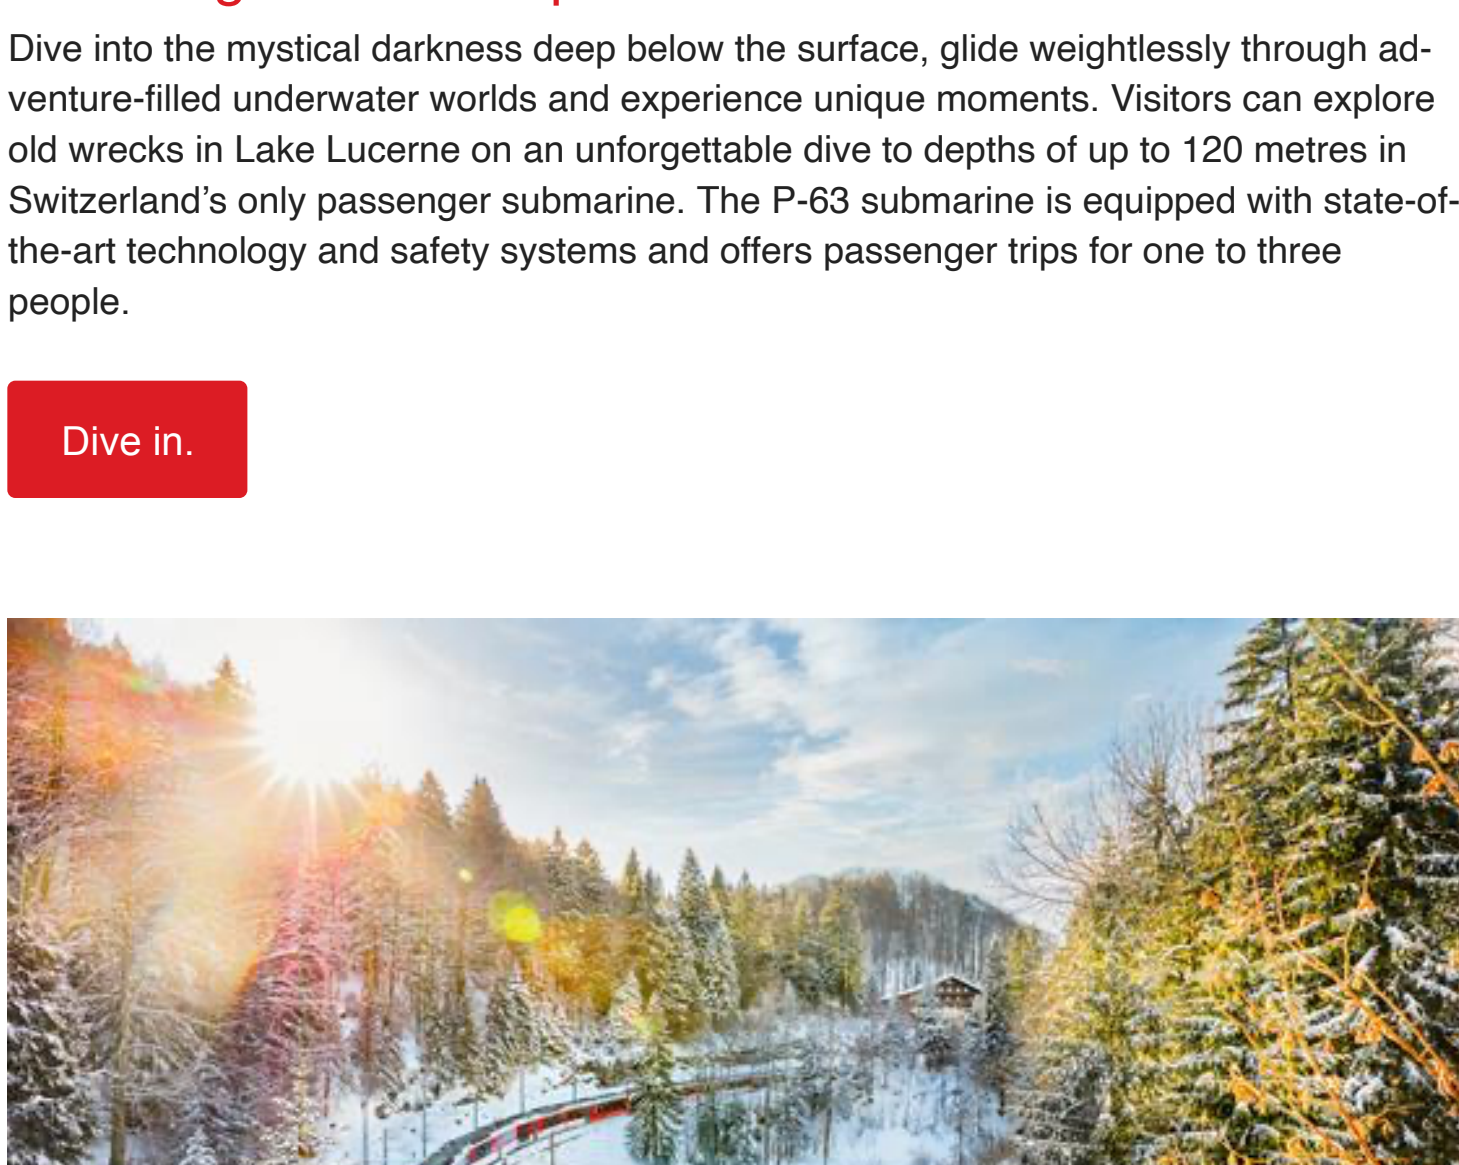

Myriam, Harry and Janine

Ziesel tour Hoch Ybrig.

Driving this very unusual vehicle is an exciting, action-packed experience that is still almost completely unknown in Switzerland. A Ziesel is an electric tracked vehicle which allows almost silent driving through the snowy winter landscape. It is steered with a joystick and the seats are heated. The skiing resort Hoch Ybrig in Central Switzerland now offers 40 minutes long tours including a driving introduction and a snack break.

Christmas in the city.

Not only in the mountains but also in the cities, visitors can get into the festive spirit. On a stroll through Zurich one can listen to Christmas stories and learn about the city's sights and landmarks. A visit at the Christmas market before or after the tour is highly recommended and is the perfect way to round off the experience. Basel's Christmas markets are considered to be of the most beautiful ones in the whole of Europe. The city on the Rhine has a very special charm in the run-up to Christmas. The picturesque Christmas market takes place in Barfüsserplatz and Münsterplatz, right in the centre of the city at the heart of the festively decorated old town.
