

BLS Interlaken Lake Cruise

Two lakes - endless experiences

Discover the beauty of the Lake Thun and Lake Brienz region with BLS Interlaken Lake Cruise. Nestled among blue-turquoise lakes, picturesque chalet villages, and eternally white mountain summits - this is where you discover picture book Switzerland. Enjoy a lake cruise and combine it with a mountain excursion or any other sight in our breathtaking area.

Whether it's a couple seeking a romantic escape, a solo traveler, or family and friends on an adventure, our unique offerings promise unforgettable moments on both lakes. Enhance your journey to Interlaken by upgrading the journey by using a BLS boat on Lake Thun or Lake Brienz. Changing from the train to the boat (or vice versa) is very convenient and easy to handle since all major piers are located just footsteps away from the railway stations.

Indulge in fabulous views of the picturesque mountain scenery or historic castles and romantic waterside locations, not forgetting to combine your trip with a delicious meal on board. Or would you prefer an unforgettable sunset during an evening cruise on one of our lakes? We have something to suit every taste.

Even the youngest travelers will be excited by our boat trips. Both steamboats feature generously equipped play cabins, accompanied by professional supervisors, ensuring a fun and safe experience for kids aged 4-12. And on top of this, children travel for free on Saturdays!

Make the most of your lake cruise by combining it with an excursion of your choice in our beautiful area. It's well worth taking a detour from Lake Brienz on the Brienz–Rothorn steam rack railway, visiting the Ballenberg Open Air Museum or the Grandhotel Giessbach with its stunning waterfall. On Lake Thun we recommend a guided tour through the St. Beatus Caves or a trip up the Niederhorn mountain followed by a fast-paced trip down into valley on a micro-scooter. Even major mountain excursions to snow capped mountains in the Jungfrau region, such as Jungfrauoch or Schilthorn, can be seamlessly integrated into your lake cruise experience.

For 2026 we are delighted to announce the unveiling of a brand-new boat on Lake Thun. Specifically designed for the winter season, this modern ship is made to enhance the winter experiences on Lake Thun. We are presenting a contemporary and luxurious design, the vessel will accommodate up to 700 passengers, providing a comfortable journey for those seeking a unique winter adventure on the lake.

While the scheduled cruises on Lake Thun are available all year, with a peak in summer, the cruises on Lake Brienz are operational from April – October seasonally.
