Worldwide outstanding
The Liechtenstein Trail

The best way to explore the Principality of Liechtenstein is on the Liechtenstein Trail. There are 75 km / 46 mi full of exciting stories, sights, magnificent views, idyllic resting places and much more awaiting the explorer. The Liechtenstein Trail leads through all eleven villages in the country. The trail not only connects the most beautiful and exciting places in the country, but also tells the history of the Principality with the help of the free app "LIstory". It guides the user from one adventure site to the next and shows the course of the hike. But even without the app, the sights and natural beauty of the trail can be enjoyed thanks to good, conventional signposting. Depending on your level of fitness, the Liechtenstein Trail can be explored in three or more days. The trail can also be easily done on two wheels by e-bike, bicycle or mountain bike. The cycling route differs slightly from the hiking route in some places, but you will still pass all the attractions and sights of our country. We recommend dividing the 85 km / 53 miles trail into three stages.

Media package: Liechtenstein Trail
Discover a country on foot or by bike: 46 miles of exciting stories, sights, magnificent views, idyllic resting places and much more await you on the Liechtenstein Trail.
