# DAVOS

1,560 M A.S.L.

Sporting paradise, spa town, congress town, cultural centre and après-ski meet amidst a beautiful mountain landscape.

Davos is the ideal starting base for exploring the unspoiled nature in the Flüela, Dischma and Sertig valleys or the Walser villages of Monstein and Wiesen. The Schatzalp lies high up on a sun-kissed terrace directly above Davos at a height of 1,861 m.a.s.l., also known as the «Magic Mountain». The mountain was made world famous by the famous German writer and Nobel Prize winner Thomas Mann's novel «The Magic Mountain» (1924).

# KLOSTERS

1,200 M A.S.L.

Klosters is synonymous with its chalet-style village character. Its charm was discovered by American film stars and the British Royals.

The unique Schlappin, Monbiel and Vereina valleys and the high-alpine region around the Silvretta glacier are all within easy reach from Klosters (and the neighbouring villages of Serneus, Saas, Küblis). Klosters has been one of the most family-friendly holiday villages in Switzerland for many years. The Madrisa Land «World of Legends and Fantasy», situated high up on the mountain overlooking Klosters, offers guaranteed family fun in summer as well as in winter.

# BEST OF THE ALPS

Davos Klosters is one of the founding members of «Best of the Alps», an amalgamation of twelve traditional Alpine holiday resorts.

Best of the Alps represents a bond with local culture and the harmonious mix of original tradition and progress. The twelve resorts are some of the real pioneers in skiing and mountain holidays and guarantee the very best quality of vacation in one of the world's most magical landscapes – the Alps. Joint marketing campaigns are a core element of the resorts' cooperation.

POWDER SNOW

## FREERIDING / TOURING

Cable car up, freeride down through pristine powder snow slopes and then take the bus or train back to the valley station – that's the benefit of Davos Klosters for fans of powder snow skiing. The expansive freeriding and ski-touring regions can also be discovered without mechanical assistance in the side valleys – paying attention to nature protection and conservation areas. We would recommend booking the service of a mountain guide.

[davos.ch/freeride](http://davos.ch/freeride)  
[klosters.ch/freeride](http://klosters.ch/freeride)

### Tips

- Pischa: the freeriding centre with a wealth of wonderful routes

# SNOWSHOE TREKKING

An outstanding adventure in nature – discover hidden gems of the region with professional guidance away from the well-worn paths deep into snow-covered woods and unspoilt wintry landscapes or under your own steam on signposted routes. Tip: Trek under the full moon, preferably coupled with a typical Grisons dinner in a rustic mountain lodge.

# WINTER HIKING

The network of over 150 kilometres of well signposted winter hiking routes in Davos and Klosters offers unforgettable experiences in a landscape glistening in powder snow. The pristine side valleys are highly recommended, as are excursions up to the sun-kissed mountains, which can be easily reached by the lifts and cable cars. Tip: Hike to the Alp Garfiun or down from the Schatzalp by night.

# FOR CONNOISSEURS AND OLYMPIC CHAMPIONS

# CROSS-COUNTRY SKIING

Davos Klosters offers a wide range of activities for cross-country skiers. The network of cross-country trails extends to 100 kilometres of classic and 85 kilometres of skating trails suitable for all abilities. The resort enjoys perfect conditions from October to April, thanks to its altitude and guaranteed snow, conditions that our ambassador, Olympic and World Cup champion Dario Cologna, much appreciates.

# TOBOGGANING FUN AGAINST THE BEAUTIFUL MOUNTAIN BACKDROP

## TOBOGGANING

Everyone is surely aware of the «Davos sledge». As its name suggests, the famous wooden sledge was invented in the cradle of international tobogganing – Davos Klosters. The first official race was held here as far back as 1883. Today eight toboggan runs in Davos and Klosters provide diverse variety and fun for young and old.

## ICE SPORT

Davos Klosters has a long tradition in ice sport – after all, a first ice rink was operated in Davos in 1869. Today the region is the centre of Switzerland's ice-sport. This is because the resort is home to Switzerland's finest ice hockey stadium as well as a number of other ice rinks that can be used for ice skating, ice hockey, curling and Bavarian curling.

An ancient winter sport is experiencing a hip revival in many places: ice skating. And this has a long tradition in Davos. Instead of the natural ice rink, the adventure landscape „Davos World of Ice“ has been opened.
