Gornergrat – Meet the Matterhorn

If you want to discover the dazzling beauty of the Alps, you'll soon realise that the trip to Gornergrat is an essential excursion.

Its sunny viewing platform, accessible all year, makes the Gornergrat ridge a top destination – and not just because of its altitude.

Surrounded by 29 peaks rising above 4000 m and by Switzerland's greatest mountain, the Matterhorn, and second largest glacier in the Alps, it offers a spectacular mountain panorama second to none. And the "Matterhorn Railway" renders it so close you can almost touch it. For more than 125 years the Gornergrat Bahn has been making the ascent to the panoramic mountain a truly unique and wonderful experience.

From Zermatt, the popular holiday resort in the Valais, Europe's highest open-air cogwheel railway departs daily every 24 minutes, climbing to the Gornergrat 9339 m away.

The train crosses impressive bridges, galleries and tunnels, idyllic forests and alpine meadows, past rocky gorges and tarns, accompanied by the majestic mountains, first and foremost by the Matterhorn.

Dining with the stars Gornergrat

At 3100 m, your hosts up at the Kulm Hotel Gornergrat serve a great buffet with “Fondue Chinoise” (with meat) followed by dessert. Your local guide to the stars, Peter Salzmann, will then explain the star constellations and how they were influenced by the ancient Greek sagas. If the weather gods are willing, then you will have a spectacular view of the night sky from the hotel's terrace.

The highlight of the evening is to see the stars by telescope from the dome in the observatory. When the weather is favourable the sight is amazing. Professional explanations including dry-navigation with the guide Peter Salzmann.

GLACIER EXPRESS

Window to the Swiss Alps

From Zermatt and the Matterhorn, the panoramic trip leads over 291 bridges and through 91 tunnels over the Swiss Alps to St. Moritz. The Glacier Express winds its way through remote valleys, past sheer rock faces, idyllic mountain villages, over the Landwasser Viaduct and through the Rhine Gorge, the Grand Canyon of Switzerland. It scales the highest point of its journey at the Oberalp Pass with ease at 2033 metres above sea level. Thanks to the large panoramic windows, a clear view

of numerous summits, deep gorges and the UNESCO World Heritage sites "Swiss Alps Jungfrau-Aletsch" and "Rhaetian Railway in the Albula/Bernina Landscapes" is guaranteed. The menus are prepared freshly in the on-board kitchen and served to you at your seat.

HIGHLIGHTS ALONG THE ROUTE

UNESCO WORLD HERITAGE: ▲ "Swiss Alps Jungfrau-Aletsch" △ Rätische Bahn "Albula/Bernina"

En route from Zermatt to St. Moritz the Glacier Express comprises the following highlights and excursion attractions:

Matter Valley

The Matter Valley between Zermatt and Stalden spans some 25 kilometres and offers a remarkable range of scenic splendours – eternal ice, deep ravines and rugged rockfaces; 29 four-thousand-metre peaks and flowering Alpine meadows; the highest-altitude vineyards in Europe and superb ski runs. Running through the valley is the wild and foaming River Matter Vispa, which converges with the Saaser Vispa at Stalden before joining the Rhone at Visp.

Kipfen Gorge

Close to Kalpetran, the Glacier Express continues through the wild and romantic Kipfen Gorge along one of the route's most scenic sections. The train line and the River Vispa run parallel at close quarters, and in the past flooding and avalanches have caused considerable damage. The flow of the Vispa is now regulated and the railway track protected by masonry to avoid further damage.

Andermatt

Andermatt is located at the foot of the 2,033-metre Oberalp Pass in the canton of Uri, along the 144-kilometre network of the Matterhorn Gotthard Bahn. From here trains depart for Disentis, Göschenen and Zermatt. Due to the already partly opened new tourism resort Andermatt Swiss Alps, Andermatt is developing into an attractive year-round vacation destination.

Oberalp Pass

The Oberalp Pass links Disentis/Mustér in Canton Graubünden with Andermatt in Canton Uri. At 2,033 metres, it is the highest point on the route of the Glacier Express. Located even higher to the south is Lake Toma (2,345 metres), recognized as the source of the River Rhine.

Disentis Monastery

Disentis is dominated by the oldest Benedictine monastery in Switzerland, built in the late 17th century. In 1799 the monastery church was burned and plundered by Napoleon's army. Extensive restoration work was undertaken in the late 19th century. Today it houses a school.

Rhine Gorge – the "Swiss Grand Canyon".

It began 10,000 years ago as the famous Flims landslide – now it is a unique natural backdrop. Over many centuries the River Rhine has carved a path through the bedrock. The result is a ravine renowned as the Swiss Grand Canyon, and one of Switzerland's most impressive natural spectacles. The Rhine Gorge is a popular attraction for hikers, bikers and river-rafters – and can even be toured by train.

Landwasser Viaduct

The Landwasser Viaduct is the most spectacular construction on the 63-kilometre Albula stretch between Thusis and St. Moritz – and the most photographed feature of the entire Rhaetian Railway. It comes into view on the right shortly before the village of Filisur, is 142 metres long and rises impressively to a height of 65 metres. The natural stone viaduct extends in a curve over the rugged Landwasser Valley directly into a tunnel entrance on a vertical rock wall.

Albula Line

The most spectacular section of the Glacier Express Line lies between Preda and Bergün. Six towering viaducts, three spiral tunnels, and two helical tunnels make it possible to scale the 400 metre height difference. A triumph of railway engineering: the railway line between St. Moritz and Thusis belongs to the UNESCO World Heritage Site "Rhaetian Railway in the Albula/Bernina Landscapes".

EXPERIENCES – YEAR ROUND

Gornergrat Bahn

Best view of the Matterhorn

If you want to discover the dazzling beauty of the Alps, you'll soon realise that the trip to the Gornergrat is an essential excursion. Its sunny viewing platform over 3000 m a.s.l., accessible all year, makes the Gornergrat ridge a top destination, and not just because of its altitude. Surrounded by 29 peaks rising above 4000 m and by Switzerland's greatest mountain and second largest glacier in the Alps, it offers a spectacular mountain panorama second to none. And the "Matterhorn Railway" renders it so close you can almost touch it. The highest open-air rack railway in Europe has its starting point in the well-known Valais resort of Zermatt, from where it travels daily during the high season every 24 minutes on the 9,339-metre route to the Gornergrat.

Bernina Express

From the glaciers to the palms

From high up among the towering glaciers of the mountains down to the swaying palms of Italy, the Bernina Express, the highest transalpine railway in the Alps, provides a link between northern and southern Europe. And it does so in the most wonderful way imaginable, on a railway line that coexists in perfect harmony with its glorious mountain setting. A masterpiece of engineering: since 2008 the stretch of track between Thusis and Tirano has had UNESCO World Heritage status. The wonders of nature and the cultural achievements of man merge into one to offer one of the best ways ever to experience the Alps.

Bernina Express Bus – a scenic journey through the south

Want to see more of the south? On the Bernina Express Bus from Lugano to Tirano you will travel past picturesque fishing villages on the shores of Lake Como and Lake Lugano. Combine your journey on the Bernina Express to make it a thrilling round trip!

Dining on the move & Railbar

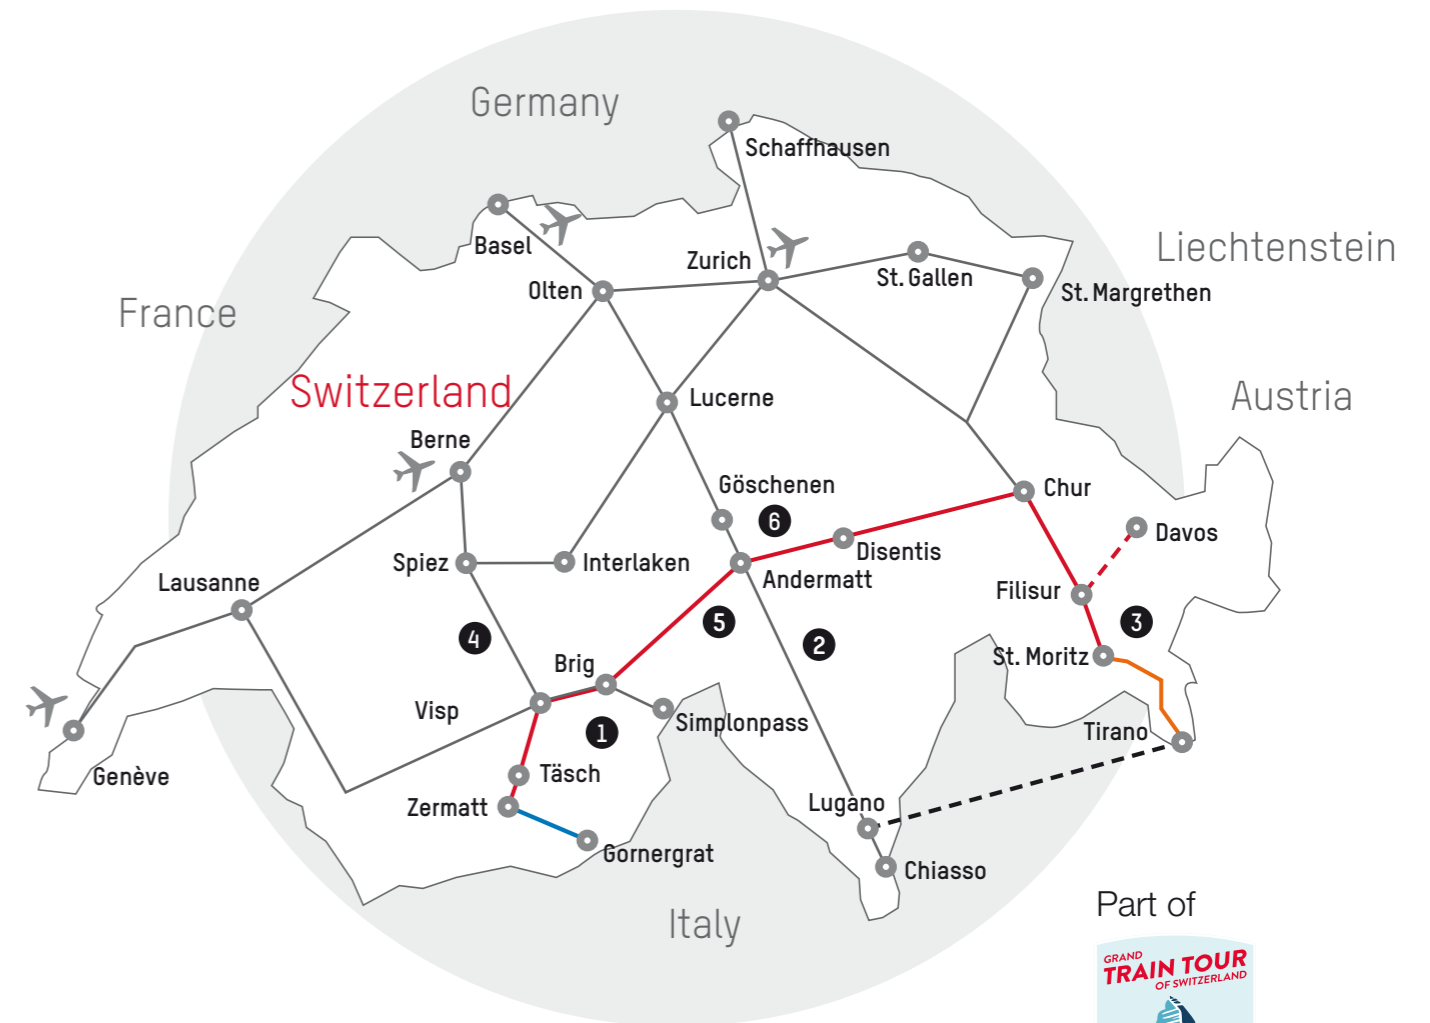

Fine regional specialities make the trip on the Bernina Express a culinary experience. Warm and cold drinks, snacks and souvenirs are available from the Railbar. The on-board personnel will serve the local delicacies directly at your seat. You will spend lunchtime in Poschiavo, Le Prese or Tirano. There are a number of restaurants close to each of the stations.

Text for operators

From Zermatt and the Matterhorn, the panoramic trip leads over 291 bridges and through 91 tunnels over the Swiss Alps to St. Moritz. The Glacier Express winds its way through remote valleys, past sheer rock faces, idyllic mountain villages, over the Landwasser Viaduct and through the Rhine Gorge, the Grand Canyon of Switzerland. It scales the highest point of its journey at the Oberalp Pass with ease at 2033 metres above sea level. Thanks to the large panoramic windows, a clear view of numerous summits, deep gorges and the UNESCO World Heritage sites "Swiss Alps Jungfrau-Aletsch" and "Rhaetian Railway in the Albula/Bernina Landscapes" is guaranteed. The menus are prepared freshly in the on-board kitchen and served to you at your seat.
